

Tip : reinforce the walls and roof from the inside - any piece of card will do.

1. Assemble the 4 walls and attach the roof.
2. Glue the 2 terrace halves together and attach to the main building - glue lines on side walls indicate the top of the terrace.
3. Assemble the "Watch office" and mount on the main building roof.
4. Assemble stairs and glue between main roof extension and terrace.
5. Optional : add the runway indicator boards with their auxiliary supports.
